

SpotOn® Portable Spray Case

FOR IMMEDIATE RELEASE: July 22, 2015

New SpotOn® Portable Spray Case Makes Demonstrations Easier

(WOODSTOCK, Ill.) [Innoquest, Inc.](#), the designer and manufacturer of sensors and measurement instruments, has released the [SpotOn® Portable Spray Case](#), which was created to help make demonstrating spray nozzles and test equipment more convenient.

“The **SpotOn® Portable Spray Case** was created for a variety of users,” [Bill Hughes](#), President of Innoquest, said. “Featuring an ultra-portable design, the spray case is battery powered and folds completely into an oversized brief case for easy transport and shipping. It was designed with tradeshow, pesticide educators, field days and salesmen in mind.”

The portable case requires only two minutes to set up and only five minutes for cleaning and re-packing. The internal battery recharges overnight and can run intermittently for more than eight hours without AC power. The spray case unit comes with a 110-volt battery charger, one-gallon water jug, three-position quick-change nozzle body and user’s manual – all designed to fit compactly in the unit.

Made in the U.S.A., the **SpotOn® Portable Spray Case** comes with a one-year warranty. The spray case lists for \$2,195, with discounts available for University personnel and pesticide educators. The unit’s convenience is featured – the easy setup, durability and portability – in this [video demonstration](#). For more details or to find a distributor, call 1 (800) 637-1623 or visit [innoquestinc.com](#).

Innoquest, Inc. has been designing and manufacturing sensors and instruments made in the U.S.A. since 1993.
