BioSafe Systems LLC

AXXE Broad Spectrum Herbicide is an OMRI-listed, fast-acting ammonium nonanoate herbicide. Its highly water-soluble formula targets grasses and broadleaf weeds, moss and liverwort. Ideal for indoor and outdoor use, AXXE Broad Spectrum Herbicide doesn't volatilize, translocate or leave harmful residue. Growers and retailers appreciate its four-hour REI, allowing for minimal disruption during production. Proudly made in the USA.

Innoquest Inc.

The SpotOn Quantum PAR Light Meter accurately measures all types of light sources, including LEDs. It features three modes of operation to monitor lighting: instantaneous PAR light readings, scan function (calculates coverage area average) and Daily Light Integral (measures cumulative total amount of PAR that reaches plants during a 24-hour photoperiod). Its \$295 USD list price makes it affordable to hobbyists, small growers, large growers requiring multiple units, researchers, educators and anyone relying on artificial light to grow plants.

Gempler's Inc.

Tenax Hortonova Trellis Net polypropylene mesh revolutionizes climbing vegetable cultivation. Produced through a unique dual stretching and extrusion process ensuring optimum strength and maximum lifespan. It increases air circulation, exposure to sunlight, facilitates photosynthesis for more abundant harvest and is light, easy to install, UV treated, resistant to bacteria, chemicals and mold, and ideal for growing cut flowers and climbing vegetables. Install horizontally to grow cut flowers. Tensile strength: 78-lbs./ft. Item #231517. \$49.95. Reader Service Number 152

GrowSpan Greenhouse Structures

GrowSpan WideSpan Venlo Commercial Greenhouses offer exceptional climate control and a wider design ensures the maximum amount of growing space. The structure features a dual ridge vent roof for maximum ventilation and a film cover that's been tailored for growing in hot climates, so this is ideal for warm weather regions. All aspects of this greenhouse can be customized to meet any operation's need. Reader Service Number 154

Atlas Greenhouse

The 30 x 96 Hydro House is designed to create the perfect environment for hydroponic crops. The Hydro House has various width options to accommodate hydroponic and other vegetable growing systems. The gutter-connect range framework allows for future expansion. The Hydro House is equipped with proper air intake and exhaust. The insect exclusion rooms serve as additional storage for your facility. Allied Gatorshield galvanized steel frame. Made in the USA. Reader Service Number 155

JP McHale Pest Management LLC

ViroClean Disinfecting Service is designed to kill COVID-19 and other viruses on inanimate environmental surfaces, such as floors, walls, structures, ventilation and other equipment. This powerful disinfecting misting procedure sanitizes large areas quickly, achieving maximum effectiveness and minimal downtime. ViroClean materials are EPA-approved and effective for viral elimination. ViroClean disinfecting services include bio-fogging and hard surface wipe-down for heavily contacted surfaces and high traffic areas. Various options are available for frequency of treatment, phased treatment and after-hours service. Reader Service Number 153
